<p>(iii) those activities concerning a legal case whose objective is the acquisition or loss or change of rights concerning real property in Korea, intellectual property rights, mining rights or other rights arising upon registration thereof with government agencies in Korea ; and</p> <p>(iv) legal cases concerning family relations or inheritance, in which a Korean national is involved as a party or the property concerned is located in Korea.</p>			

**Notes**

The following information is provided for transparency purposes only :

- i) A foreign lawyer who wishes to practice law as a foreign legal consultant in Korea must be approved by the Minister of Justice, must have practiced law for at least 3 years in the jurisdiction where he/she is qualified as a lawyer, and must be in good standing of the legal profession in the jurisdiction.
- ii) Permission of the Minister of Justice is required for the establishment of a representative office in Korea. The representative office consists of a FLC or FLCs approved by the Minister of Justice. It must have credibility and expertise, and sufficient capability to compensate for damages caused to the client, if any. The chief of the representative office must have practiced law for at least 7 years, including 3 years in the jurisdiction of his/her qualification.

*) A representative office can conduct profit-making activities provided that such presence in Korea maintains proper business plans and financial bases.*

<p><b><u>Explanation on the Initial Offer on Financial Services</u></b></p> <p>1. Financial sectors are basically re-classified according to the category of the Annex on Financial Services. Therefore the order of sub-sectors is different from that of the commitment in GATS/SC/48/Suppl.3/Rev.1.</p> <p>2. Specific statements in the sub-sectors apply only to existing domestic financial services.</p> <p>3. The following statements in GATS/SC/48/Suppl.3/Rev.1 can be deleted if they are understood as monetary or exchange rate policies as stipulated in Article 1(b)(i) of the Annex on financial services or as domestic prudential regulations as stipulated in Article 2(a) of the Annex on financial services:</p> <p>(1) Cross border supply of financial services and supply through consumer movement may not be settled in Korean currency. After the establishment of a commercial presence, financial institutions may handle only transactions, denominated and settled in Korean currency, with residents. Approval is required for transactions denominated or settled in foreign currency or transactions with non residents.</p> <p>(2) The management and operation of assets of a financial institution are restricted.</p> <p>(3) Foreign exchange position is regulated. The oversold position of spot foreign exchange is US\$ 5 million, or 3 per cent of capital (whichever is greatest).</p> <p>(4) Demand deposit interest rates are regulated. The maturity of CDs shall be more than 30 days.</p> <p>(5) Representative offices may be established by pre notification</p> <p>(6) Underlying transaction and documentation requirements apply to foreign exchange transactions. Underlying documentation requirements are exempt in the case of forward transactions.</p>			

Modes of supply: 1) Cross-border supply 2) Consumption abroad 3) Commercial presence 4) Presence of natural persons

Sector or Sub-sector	Limitations on Market Access	Limitations on National Treatment	Additional Commitments
<p>7. FINANCIAL SERVICES</p> <p><i>All financial services are subject to the following provisions.</i></p> <p>(1) <i>As described in paragraph 2(a) of the Annex on Financial Services, Korea shall not be prevented from taking prudential measures including requirements related to parent companies, the minimum capital requirement, or minimum operating funds requirement. In those cases where the establishment of commercial presence by foreign companies in the financial sector is allowed, approval by the relevant authorities is required in accordance with related laws and regulations unless otherwise specified in any of subsectors below. For prudential reasons within the context of paragraph 2(a) of the Annex on Financial Services, Korea shall not be prevented from taking measures including requirements related to parent companies, the minimum capital requirement, minimum operating funds requirement, business worker's license and approval for business activities.</i></p> <p>(2) <i>Subsectors in financial services are classified based on the unit of business establishment. A financial institution must be established for only one business defined in subsectors (1) through (14), and thus cannot engage in business activities in other subsectors. A financial institution must be established for only one business defined in related law and thus cannot engage in other business activities regulated by other relevant laws.</i></p> <p>(3) <i>Cross-border supply of financial services and supply through consumer movement may not be settled in Korean currency. After the establishment of a commercial presence, financial institutions may handle only transactions, denominated and settled in Korean currency, with residents. Approval is required for transactions denominated or settled in foreign currency or transactions with non-residents.</i><del><i>{Can be deleted if understood as foreign exchange rate policies}</i></del></p> <p>(4) <i>Assets owned by branches must be kept within the territory of Korea. Capital of the head office is not recognized as the basis for determining the extent of funding and lending activities of domestic branches.</i></p> <p>(5) <i>Demand deposit interest rates are regulated.</i><del><i>{Can be deleted if understood as a monetary policy}</i></del></p> <p>(6) <i>The management and operation of assets of a financial institution are restricted.</i><del><i>{Can be deleted if understood as prudential regulations}</i></del></p> <p>(7) <i>A financial institution may not own non-business real estate.</i></p> <p>(8) <i>Some new financial products, including derivatives, are subject to approval. Introduction of new financial products including derivatives is subject to approval. With interest rate and foreign exchange liberalization, such products will be more widely allowed, subject to relevant laws and regulations.</i></p> <p>(9) <i>Mode 1)2)3) Korea undertakes a standstill commitment for limitations on market access and national treatment, where specific commitments are undertaken, in financial services listed in this schedule as of 31 August 1997.</i></p>			
<p><del><i>NOTE) The following statements in GATS/SC/48/Suppl.3/Rev.1 can be deleted if they are understood as monetary or exchange rate policies as stipulated in Article 1(b)(i) of the Annex on financial services or as domestic prudential regulations as stipulated in Article 2(a) of the Annex on financial services.</i></del></p> <p><del><i>(1) Cross-border supply of financial services and supply through consumer movement may not be settled in Korean currency. ## REFERENCE PAPER

### Scope

The following are definitions and principles on the regulatory framework for the basic telecommunications services.

### Definitions

Users mean service consumers and service suppliers.

Essential facilities mean facilities of a public telecommunications transport network or service that

- (a) are exclusively or predominantly provided by a single or limited number of suppliers; and
- (b) cannot feasibly be economically or technically substituted in order to provide a service.

A major supplier is a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:

- (a) control over essential facilities; or
- (b) use of its position in the market.

### 1. Competitive safeguards

#### 1.1 Prevention of anti-competitive practices in telecommunications

Appropriate measures shall be maintained for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.

#### 1.2 Safeguards

The anti-competitive practices referred to above shall include in particular:

- (a) engaging in anti-competitive cross-subsidization;
- (b) using information obtained from competitors with anti-competitive results; and
- (c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

### 2. Interconnection

2.1 This section applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier, where specific commitments are undertaken.

## 2.2 Interconnection to be ensured

Interconnection with a major supplier will be ensured at any technically feasible point in the network. Such interconnection is provided.

- (a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates;
- (b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and
- (c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

## 2.3 Public availability of the procedures for interconnection negotiations

The procedures applicable for interconnection to a major supplier will be made publicly available.

## 2.4 Transparency of interconnection arrangements

It is ensured that a major supplier will make publicly available either its interconnection agreements or a reference interconnection offer.

## 2.5 Interconnection: dispute settlement

A service supplier requesting interconnection with a major supplier will have recourse, either:

- (a) at any time or
- (b) after a reasonable period of time which has been made publicly known

to an independent domestic body, which may be a regulatory body as referred to in paragraph 5 below, to resolve disputes regarding appropriate terms, conditions and rates for interconnection within a reasonable period of time, to the extent that these have not been established previously.

## 3. Universal service

Any Member has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive per se, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by the Member.

4. Public availability of licensing criteria

Where a licence is required, the following will be made publicly available:

- (a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence and
- (b) the terms and conditions of individual licences.

The reasons for the denial of a licence will be made known to the applicant upon request.

5. Independent regulators

The regulatory body is separate from, and not accountable to, any supplier of basic telecommunications services. The decisions of and the procedures used by regulators shall be impartial with respect to all market participants.

6. Allocation and use of scarce resources

Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, will be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands will be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

ATTACHMENT CONCERNING MARITIME TRANSPORT SERVICES

1. International Shipping, 3.b):

"Other forms of commercial presence for the supply of international maritime transport services" means the ability for international maritime transport service suppliers of other Members to establish branches and to undertake activities concerned for the supply to their customers of maritime transport services.

2. Maritime Cargo Handling Services:

Activities exercised by stevedore companies, including terminal operators, but not including the direct activities of dockers, when this workforce is organized independently of the stevedoring or terminal companies. The activities covered include the organization and supervision of:

- the loading/discharging of cargo to/from a ship;
- the lashing/unlashing of cargo;
- the reception/delivery and safekeeping of cargoes before shipment or after discharge.

3. Customs Clearance Services:

Activities consisting in carrying out on behalf of another party customs formalities concerning import, export or through transport of cargoes, whether this service is the main activity of the service supplier or a usual complement of its main activity.

4. Container Station and Depot Services:

Activities consisting in storing containers in port areas with a view to their stuffing/stripping, repairing and making them available for shipments.

5. Maritime Agency Services:

Activities consisting in representing, within a given geographical area, as an agent, the business interests of one or more shipping lines or shipping companies, for the following purposes:

- Marketing and sales of maritime transport and related services, from quotation to invoicing, and issuance of bills of lading on behalf of the companies; acquisition and resale of the necessary related services, preparation of documentation, and provision of business information;
- Acting on behalf of the companies organizing the call of the ship or taking over cargoes when required.

6. Maritime Freight Forwarding Services:

Activities consisting of organizing and monitoring shipment operations on behalf of shippers, through the acquisition of maritime transport and related services, preparation of documentation and provision of business information.

7. Tally, Measuring and Survey Services:

- Tally services : Activities consisting of calculating the number of cargoes or verifying the delivery and the receipt when loading and unloading.

- Measuring services : Activities consisting of calculating or verifying the volume or weight of cargoes when loading and unloading.

- Survey services : Activities consisting of the verification, inspection and survey related with shipped cargoes and vessels (including barges).
